

Low Income Weatherization Assistance Program 2017

Overview and Goals

- LIWAP – A custom energy conservation program that provides incentives to state weatherization and other non-profits or government agencies that weatherize low-income residences
- Goals
 1. Partnerships to deliver energy efficiency measures to low-income residents
 2. Educate agencies about opportunities to upgrade low-income homes energy efficiency
 3. Improve low-income customers comfort level & energy savings
 4. Increase low-income customers participation in DEF's DSM programs

Eligibility Criteria

- The income eligibility requirements will align with the participation agency criteria
- The residence must be in DEF's service territory with an active account
- The residence must be a residential metered customer
- All installations must be accessible for verification by DEF's representative
- Homes must be greater than two years old
- Homes having previously received DEF's incentive for listed measures are not eligible for the same measure
